

**PRESENTING**

## **ExtremeScienceInFlight**

Watch in amazement as technology takes flight. Witness jaw dropping stunts as Master Pilot Chris Fletcher shows off his incredible skills during several impressive stunt routines.

The laws of physics will seem to be defied as Fletcher pushes DRONES, FPV Racers and HUGE remote controlled helicopters to the extend of their physical limits and beyond the minds comprehension.

Children and Adults alike will join in the conversation as Fletcher discusses the science and technology behind these highly evolved flying machines. The program is a perfect combination of Science and Technology along with insane aerial acrobatics and mind numbing piloting skills.

The program has been described as an adrenaline induced science program mized with incredible skill based flying that is a feast for the senses and a challenge to the mind. An extreme science and aerial show for all ages.

Did you know? This show contains NYS learning standards for core curriculum in Engineering Design, Information Systems, Science, Physics and Chemistry. Topics on Energy, Aerodynamics, Gravity, Lift, Torque, Circuits, Discharging, Electrical components, etc.

Fletcher brings his teaching background, masters in technology and his passion for building and flying these works of art to this Extreme science aerial show.

**Catch the Show! Tuesday July 24 at 7:30 PM in the Grandstand**
